Abstract

New aqueous pearlizing concentrates comprise polyolcarboxylic acid esters, emulsifiers and polyols. Aqueous pearlizing concentrates are claimed, which comprise: (1) polyolcarboxylic acid esters (1-99.9 wt. %) obtained by reacting: (a) polyols containing 2-6 OH groups; (b) 1-22C fatty acids, 2-8C polyfunctional carboxylic acids; and (c) and 2-4C hydroxycarboxylic acids; (2) anionic, non-ionic, cationic, ampholytic and/or zwitterionic emulsifiers (0.1-99 wt. %); and (3) polyols (0-40 wt. %). An Independent claim is also included for preparation of the concentrates.
